Date: Monday, June 15, 2015 9:14:00 AM

Ok, thanks. We may need to post something brief about this on the web site, but we need (David?) a brief description of what they will be doing.

Matt, Kelly,

Thank you both for coming out this morning and looking at this important Superfund site. For your information I have attached the latest EPA update which provides current and background site information. Also attached is the contact info for Lea Oberlin, Director of Environmental Affairs for the Port of Houston.

The quarterly cap inspection is scheduled for the first week in July. I will email the results to you both once received. This morning we did find three spots on the center berm where the cap liner was exposed. Photos of these spots were taken and provided to the EPA to initiate repairs by the responsible parties.

Let me know if you need anything else..

Bob Allen

Subject: San Jacinto River Waste Pits - Follow Up

Hi Bob,

Thank you again for taking the time to show me the pits. Please see my contact information below. Also, please let our office know when the inspection for the pits is complete and the results of the inspection. Thanks again!

Sincerely,

Matthew Conner
